EXPERIENCE

Open-Source Web API Implementation Project

JUNE 2022

Between May and June of 2022, I built an open-source project that documented and provided a tool that implemented the private Web API and Streaming API for the Poparazzi social media platform.

Garmin Watch Application

SEPTEMBER 2021

In Fall of 2021, I published my first mobile application for the Garmin watch family on the Garmin IQ store. This watch face display app has around 8,500 downloads on the Garmin IQ store.

Social Media Twitter Bot

JUNE 2020

In June of 2020, I built an automation for the Twitter social media platform using the Python language and an open-source Python module for using the Twitter media API. The bot would post updates from an online game Rest API endpoint available at https://www.toontownrewritten.com/api/sillymeter.

SKILLS

- Bilingual; Fluent in both English and Spanish.
- Experience with object-oriented languages.
- Strong knowledge in Python and TypeScript.
- 3 years of experience using Git VCS & GitHub.
- 1 year of experience using GNU/Linux systems.
- Basic knowledge in Google Cloud Platform.
